This is an experimental release for a PrusaXL built plate- currently I do not own a PrusaXL, so I can't verify/print this design, but it does work flawlessly at a smaller size on Prusa MLK3x/4x.

Hi,

this is a bigger remix of my "[40cm Giant Optical Illusion Wind Wheel \(15,75" diameter\)](#)" - the overall size of this design should be approx. 60cm (23,6") in diameter.

This should show the size comparison of this design (green) to a 40cm version (yellow)

Here 'only' the files for the wings (open AND closed) as well of the rotors are available - for the housing or the assembly description please refer to "[40cm Giant Optical Illusion Wind Wheel \(15,75" diameter\)](#)".

I hope you can use this design and would be very thankfull if you give me a like, a comment or even better post a make of your built. Stay curious and enjoy life!

I think this will give you a good impression of the available, verified sizes:

from left to right:

40cm diameter : this page ([40cm Giant Optical Illusion Wind Wheel \(15,75" diameter\)](#))

30cm diameter: [30cm Large Optical Illusion Wind Wheel \(11,8" diameter\)](#)

20cm diameter: [Optical Illusion wind wheel remixed for Prusa MK3/4](#)

Note: I'm currently working on a 20cm multi-wing version (similar to the 40cm and the 30cm) version

This remix is based on
