Tags: [dyson](#) [hsw](#) [remote](#)

I wanted a holder for my Dyson fan that was also HSW compatible, Its a quick remix in tinkercad so it still has some issues but should be useable

I printed it out of PETG with PLA as a support interface with an X1C and AMS (If you do this Make sure you purge the MAX, if you don't the print will be really weak at the support layers)

This remix is based on

Honeycomb storage wall

by RostaP

Dyson Heat + Cool Remote Holder

by Zkaza
