## Summary

A bleacher system for displaying your Calicat collection

[3D Printers](#) > [Accessories](#)

I really liked Lightningund's Calicat holder, but it was proportioned to only fit their modified calicat remix. I had a ton of calicats I'd collected over the years with the traditional dimensions, so I modified this display platform to work with those. I also removed the gridfinity interface, as I don't use it.
