This is a drill bit holder to mount on french cleat or sit on the work bench.

You can add drill bits from 1mm to 13mm in steps of .5mm.

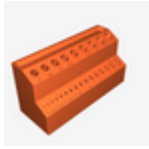

On the back there are already 10mm deep holes for attachment to a French Cleat holder. (there's a picture for dimensioning of the holes)

For any questions or improvements feel free to write a comment.

Print instructions

I printed this in Prusament Urban Grey PETG with 0.2mm layer height and 20% infill on my MK3S.
