I have a Kärcher SC3 easyfix steam cleaner, and I've been annoyed by the fact that there is no easy way of storing the cable. It may fit other steam cleaners that have the same "attachment hole" at the back.

Thus, my attempt at making an attachable accessory for it, which allows the cable to be wound up around it and has a way of attaching the plug, so it doesn't unravel.

Print instructions

I've printed this with simple white PLA, 20% gyroid and buildplate-support.

Changelog

1.0 - Original Upload

2.0 - 06.03.2022 - Complete rework (Inventor to Fusion 360). Moved the location to wrap up the wire to the back.
