

3D MODEL ONLY

Treasure storage

 **Inexperienced Professional**[VIEW IN BROWSER](#)

updated 2. 8. 2023 | published 2. 8. 2023

Summary

A pile of treasure with a cup and storage for 20 nozzles.

[Hobby & Makers](#) > [Organizers](#)

This pile of treasure is more than meets the eye, because hidden within is storage for 20 nozzles, and a cup for any small objects. I recommend printing it in silk gold pla because it match's brass nozzles very well. (Most nozzles should be compatible if they are not please notify me.)
