This is a bit holder especially for Wera bits with the impactor bit holder from Wera.

On the back there are already 5mm deep holes for attachment to a French Cleat holder. (there's a picture for dimensioning of the holes)

There are two files, one with the Wera logo and one without it.

For any questions or improvements feel free to write a comment.

Print instructions

I printed this in Prusament Urban Grey PETG with 0.15mm layer height and 20% infill on my MK3S.
