Summary

Gnarly Monster art!

[Art & Design](#) > [2D Plates & Logos](#)

Gnarly monster art #1

Drag it into bambu slicer or orca.. split it into objects, color accordingly, then reassemble and slice! Dont forget to scale as desired. I print mine at full bedplate size and only 1mm thick on a textured plate. they turn out fabulous!

SVG included for all you fancy fusion users who wanna get crazy.

If you enjoy my models and want to help donate towards the effort I put into making these, please send donations to my paypal. @wagzledz

Thank you!
