Gnarly monster art #3

Drag it into bambu slicer or orca.. split it into objects, color accordingly, then reassemble and slice! Dont forget to scale as desired. I print mine at full bedplate size and only 1mm thick. they turn out fabulous!

SVG included for all you fancy fusion users who wanna get crazy.

**If you enjoy my models and want to help donate towards the effort I put into making these, please send donations to my paypal. @wagzledz**

**Thank you!**
