I wanted to design something while trying out Shapr3d, came up with this Nintendo Game & Watch Ikea Skadis pegboard mount.

This will fit the modern Super Mario Bros and The Legend of Zelda Game & Watch handheld consoles; I do not know if it will work for the original retro ones. I made sure to leave the usb port and power button accessible for those that want to charge the console or use them as a clock while mounted.

Printed with 30% infill, 0.28mm layer height, and supports on an Creality K1.

Non-Commercial license, if you would like to sell commercially, please contact me.
