updated 6. 8. 2023 | published 6. 8. 2023

Summary

Remix of 2 Printable Files. I keep 1 SD card per roll of filament. Found a way to have storage and filament clip.

[sdcardcase](#)

Been using both designs for rolls of filament. Sliced them together and added the filament clip to the tray from the sd card keychain. Now my card stays with the roll at all times.
