The 10mm diameter, 3mm height magnets to hold the two halves of the UFO together are optional, as a display piece gravity alone should be sufficient.

Use a piece of wire to hold the UFO over the base at a height and an angle you like.

Blender file included.

UFO_top.stl and UFO_bottom.stl will need supports for the cavity holding the tea light.

Tea Light size: 38mm diameter, 20mm height (not counting the flame)

The Tealight Series:

Rocket

Flyer
