Update 12/09/2023

Thanks to one of your feedback I've figured out that the file for the Stem wasn't laying right on the buildplate and had a wrong orientation. I've now uploaded the correct one, so you don't have to arrange it yourself and should be printed more easily.

Update 15/08/2023

Added two separated pieces for the Stem and the Pumpkin Skull.

The Pumpkin Skull in its low poly version is an enchanting blend of Halloween vibes and modern art.

The combination of the classic pumpkin shape and the edgy skull details make it a unique and eye-catching decoration for your spooky festivities.

Illuminate it with a soft glow or place it among your haunted decorations for an extra dose of enchantment, embrace the spirit of the season with this captivating fusion of pumpkins and polygons!
