Summary

This is great to store small tools related to 3D printing, machining, maintenance etc. 200x100 Standard Form Factor

Hobby & Makers > Tools

Tags: toolbox tools workbench toolorganizer

Another basic tool organizer.

Works great for deburring tools, small wrenches, screw drivers, glue sticks. You name it.

The 200x100 size fits well in a lot of standard Kennedy, Craftsman, and other tool boxes.

I printed mine in PLA. Any material will work.

2 or 3 walls. Infill to you preference.

They have lasted several years of hard factory use. Storing carbide deburring cutters, files, and more.
