Here's a tiny pergola for your climbing plants! Provide succulent shade for your succulents!

There's now a [version that prints faster](#)! You can also [replace the vertical posts](#) if they've broken!

Featuring genuine, faux woodgrain and itty, bitty bolts! ☹️

I used a toothpick to apply a tiny amount of satin gray acrylic paint for the bolt heads.

I designed this model to fit on a 150mm build plate, but you can scale it up to your heart's content!

Here's the [tiny hanging planter](#)!

While we're on the subject of gardening; check out my [20 humorous plant signs](#) and [vases perfect for planting](#)!

Print Settings:

0.2mm layers, 3 walls, 0% infill (you will likely need some infill when scaling, so be mindful of that), no supports when printed as oriented when downloaded
