**This is a model I've designed myself. As the model is not behind a paywall, support is appreciated!**

Clip it on to your doors sidepocket or onto the pocket on the back of your seat!

Volume of 2 liters (67.5fl.oz.)

Insert a small plastic bag to easily empty the can

Print the flipper lid 100% infill, important for balancing the pivot

All the parts are pre-oriented for printability, I used tree supports on all the parts and kept the treshold angle at 29 degrees.

**Changelog:**

2023.09.12: Added a little curve on the hook to make it a little bit more secure (Bin v2)
