Summary

Print in place layered pumpkin fidget toys

[Seasonal designs](#) > [Autumn & Halloween](#)

Tags: [halloween](#) [pumpkin](#) [fidget](#) [fidgettoy](#) [jackolantern](#)
[halloweenpumpkin](#) [3dpmom](#) [layeredfidget](#)

These layered fidgets are hard to put down:) I have included 4 files to choose from:

- (1) Small pumpkin layered fidget with cut-out facial features (supports needed)
- (2) Small pumpkin layered fidget no supports needed (facial features not cut-out)
- (3) Large pumpkin layered fidget with cut-out facial features (supports needed)
- (4) Large pumpkin layered fidget no supports needed (facial features not cut-out)

3D PRINTING SETTINGS:

Layer Height 0.2mm

PLA works great

15-20% Infill

Dimensions of Small Jack O'Lantern Layered Fidgets: 2in x 1 1/8 in

Dimensions of Large Jack O'Lantern Layered Fidgets: 3in x 1.5in

I recommend that you turn on the "Detect thin walls" setting (in Prusaslicer go to > Print Settings > Layers and Perimeters > check the box 'Detect Thin Walls'). This will ensure that all the vertical lines on the pumpkins print out well.
