Skullmask for Halloween or Pen and Paper eg.

Updated the mask for less material usage. Feel free to comment if it worked!
→ SkullMask_v2

I would strongly recommend printing the mask as one, even if it takes longer to print. I didnt trust my printer (because quite new) and printed it with the different parts. The part version isnt updated and still uses more material.

Filament:

3D Jake PLA

White Post-Printing for part print ==========

I had to modify the mask and cut of a few parts because it was too narrow at the base.

The parts were glued and the created gaps filled with greenstuff.

Afterwards I used black primer followed by white primer.
