I originally created this little dragon to hold my wacom pen. I thought he'd make a cute toothbrush holder as well, so here he is!

He makes me happy, I hope he makes you happy as well!

### Print Settings

#### Supports:

Doesn't Matter

#### Notes:

While I have been able to print this guy without supports, the tail and ears tend to get a bit stringy, so feel free to add supports if you wish.

How I Designed This

I modeled this from scratch in ZBrush then prepared it for printing using [www.MakePrintable.com](http://www.MakePrintable.com). Please view my website to see more of my work: [www.KIMBOLT.com](http://www.KIMBOLT.com).

Category: Sculptures
