updated 12. 4. 2022 | published 23. 3. 2021

Summary

I originally created this little dragon to hold my wacom pen. He can hold a number of objects, so be creative!

I originally created this little dragon to hold my wacom pen. He can hold a number of objects, so be creative!

If you want to print this without supports, you can purchase the redesigned version here:

<https://www.myminifactory.com/object/3d-print-baby-dragon-supportless-pen-holder-103181>

He makes me happy, I hope he makes you happy as well!

Print Settings

Notes:

While I have been able to print this guy without supports, the tail and ears tend to get a bit stringy, so feel free to add supports if you wish.

How I Designed This

I modeled this from scratch in ZBrush then prepared it for printing using www.MakePrintable.com. Please view my website to see more of my work: www.KIMBOLT.com.

Category: Sculptures
