### Summary

A parametric handle for your projects

[Hobby & Makers](#) > [Tools](#)

Tags: [parametric](#) [handle](#) [fusion360](#) [toolbox](#)

I designed this handle for my Fusion projects. You can print it and then attach it using 3 mm screws. It is fully parametric so you can modify it to your liking. There are parameters for the number of finger grooves and their length.

You can find this handle in use [here](#)
