Summary

6 port charger screw mount

[Household](#) > [Office](#)

Tags: [wall](#) [mount](#) [charger](#) [screw](#)

I needed to put my multi usb wall charger on the side of a library, where I usually charge my devices. So I made this mount to screw the charger to the side. It can also be attached with some strong adhesive.

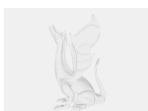

I included the F360 file with two parameters for length and width on the front of the charger, so you can modify it based on your needs.
