Recreator3D.com brought these as our swag giveaway coin keychain for ERRF2023 (now officially 3DPrintopia!) to help promote our Recycling efforts.

They'll also be at SMRFF2023 at our sponsored table at the event in December 2023! Come by and say HI to Doug!

We wanted to show off what else we reused our bottle caps for, after we stripped down the bottles and pultrude them into usable 3D printer filament our Recreator3D Pultrusion Units!

These were such a hit among attendees and vendors, we decided to upload them for people to download them who may have missed them or the event!

We also made them generic, so that you can reuse your plastic bottle caps in varying ways.

Great to organize by color or favorite brand.

What else can they be used for?

Small coins for emergencies, pills, lozenges, or even our favorite herbs or spices!

Keyrings used at ERRF2023 can be found here:
