Tags: [holder](#) [cable](#) [mount](#) [tie](#) [screw](#) [ziptie](#) [zip](#)

I needed some sturdy cable holder for my desk. Using adesive tape was not an option as they detach pretty easily. Screw was the way to go but also cable diameter is a problem. So I made this fit-all mount. Printed in PLA, but it can also be printed in abs or petg.

In the future I might update the files whit multi zip ties holes for better management of the cable (based on user download and likes).
