## Summary

Simple holder that can be glued to filament storage containers.

Tag holder to be attached (I glue mine) to filament storage bins. I use these bins: [https://www.amazon.com/gp/product/B0B75QF7XM/ref=ppx\\_yo\\_dt\\_b\\_search\\_asin\\_title?ie=UTF8&psc=1](https://www.amazon.com/gp/product/B0B75QF7XM/ref=ppx_yo_dt_b_search_asin_title?ie=UTF8&psc=1)

Print bottom down with a brim to avoid the need for support. I usually print 5 to 10 at a time.
