Modified and combined the following models to make a wallmount for our Honeywell doorbell:

- <https://www.printables.com/model/405222-doorbell-mount-honeywell> (see model's description for compatible Honeywell devices)
- https://www.printables.com/model/326242-ornament_wall_orient

Has a shallow recess at the back for a 60mm electrical box cover, which you can glue in, thus making a mount.

Thank you to both of the creators of the models used to make this one!
