Tags: [cupholder](#) [phoneholder](#) [seatleon](#)

This is a phone holder in form of a cupholder insert for a Seat Leon 5F (Mk3) - possibly will fit also other cars from VW group from that time.

This comes in 2 variants - single and double holder. All slots are around 11mm wide, so should fit most phones. Slots are angled which allows usb cable to be plugged in without obstacle and for better ergonomics for 2 phones.

I recommend printing it from at least PETG or more heat resistant materials, but I used PETG and it survived even hottest days in car.
