updated 7. 10. 2023 | published 7. 10. 2023

### Summary

A simple stacker for left over GU pots/jars/ramekins that stops them falling around the cupboard

[Household](#) > [Kitchen](#)Tags: [pot](#) [organizer](#) [jar](#)

Holding on to multiple GU pots? This stacker can hold either 9 GU pots (3 high) or 12 GU pots (4 high).  
It works best when combining with printed lids so that they stack perfectly, however it will hold a wobbly mess of jars as well if you don't want lids.
