Summary

Simple holder for typical stuff needed for trips... wipes, hand sanitizer, tissues.

Tags: [caddy](#) [handsanitizer](#) [handsanitizerholder](#)

Pretty simple, 2 piece print to hold hand sanitizer, wipes, tissues or whatever else you need for a trip in the car.

This is designed to hook over the side of the center console. It has 2 pockets, one for a bottle, and one for something like a package of wipes, tissues, or even a phone or charger. All the pockets also have drains, in case of leaks or spills.

Printed in TPU for flexibility, 3 perimeters, 15% infill. In hindsight, this probably could have been printed in PETG or ASA, or at least with more infill or thicker walls.
