Do you fail to thank your significant other on a regular basis? Need a small but effective way to show you appreciate all they've done? MAYBE you Need an inconspicuous way to tell your secretary that their performance was acceptable? I gotcha boo....

Look no further, I got this covered for ya! Print it as big or as small as needed! Drag the files into yoru slicer as 1 object and then paint as needed.

I recommend printing face down on a textured bed for the best appearance! Print with 0 infill and 5 top and bottom layers so theres no infill. I prefer to print my models at 1mm thick so theyre small yet durable.
