## Summary

Replacement for the Skimmer Basket Handle. Modeled after the HSP 1082 N2 part. Use a 0.25mm nozzle for best results.

Replacement for the Hayward Skimmer Basket Handle. Modeled after the HSP 1082 N2 part. Use a 0.25mm nozzle for best results. I used 0.0625mm layer height. You could probably use a 0.4mm nozzle, but I wanted the best fit and replication possible.
