### Summary

This is a simple screw top koozie/can cooler made for 12oz/355ml cans. You can add personalization in your slicer.

[Household](#) > [Other House Equipment](#)

Tags: [beer](#) [can](#) [cup](#) [america](#) [cooler](#) [pop](#) [koozie](#)  
[soda](#) [coozie](#) [american](#) [insulator](#) [12oz](#) [355ml](#)

When printing, make sure that threads are low layer height and give the screw top 3 wall layers (I use adaptive layers at quality 0.12). This gives the screw layers a layer height of 0.16.
