Summary

The perfect accessory kit for firstgizmo's Tiny Salt and Pepper Shaker set (585397-tiny-salt-and-pepper-shaker).

[Household](#) > [Kitchen](#)

firstgizmo's tiny shaker design is right sized for taking along with you practically anywhere. I just needed a more sure-fire way of loading them without getting powder all over the place. Having a measuring cup means I'll always get the right amount of salt, pepper, cinnamon, garlic powder, tajin, zaatar or whatever other powdered flavoring you choose to carry with you.

Beware! I gave out six sets to friends at work. Once they shared them with others I, had to make and distribute twenty more! Based upon the reactions of the recipients (see the thank you card on firstgizmo's page), this makes a nice gift; both fun and useful!

I printed these using Overture super PLA+, 1.5mm layer height, solid filled and I allowed supports everywhere to support well-formed threads on the funnel.
