Remix of delta carriages for 43mm rod lengts for using on my anycubic linear plus delta and a 52mm rod distance to my big delta build. With a nice and easy belt tensin system.

Remix of :

<https://www.thingiverse.com/thing:3054385>

I'm sure its useful for some other deltas printers that uses either 43mm or 55mm space between rods and a linear rails with 20mm screw holes.

I'm also add version with a 0.20 tolerance for both sizes carriages
