A compact two compartment Gridfinity module for bunches of long skinny objects. This is inspired by this model over on Thangs by [stentz industries](https://thangs.com/designer/stentz%20industries/3d-model/gridfinity%20usb%20cable%20storage-634099); <https://thangs.com/designer/stentz%20industries/3d-model/gridfinity%20usb%20cable%20storage-634099>

I wasn't quite satisfied with that model so I drew up my own with proportions that I liked and better topology.
