Created this simple design in tinkercad, to clean up my coffee making area.

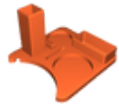

Kettle (generic 1L size with detachable base): <https://www.amazon.com/gp/product/B08FVFYB8Y>

hand grinder (Timemore C3 Pro): <https://www.amazon.com/gp/product/B0B41TWZ2C>

Aeropress Go Travel: <https://www.amazon.com/gp/product/B07YVL8SF3>

It needs simple supports just for the cord pass-through - this allows the station to trap the kettle's base properly.
