

MK4 Hex Z-Axis Top (R3 revision)

mm404

[VIEW IN BROWSER](#)

updated 7. 10. 2023 | published 7. 10. 2023

Summary

Z-Axis Tops re-made based on the latest R3 STL from Prusa.

[3D Printers](#) > [Prusa Parts & Upgrades](#)

Same as the original, but based on R3 and slightly tighter fit with the channels/counterparts.

I recommend you follow the official instructions for printing MK4 parts:

- 0.4 nozzle, 0.2mm layer, Quality (or Structural for IS), 15% infill

This remix is based on

LED Light Bar Prusa MK4
