updated 5. 11. 2023 | published 5. 11. 2023

Summary

solid isopod vent (you need to add holes by removing top and bottom layers and using the infill as mesh) 50mm hole

[Learning](#) > [Chemistry & Biology](#)

Tags: [vent](#) [insect](#) [terrarium](#) [isopod](#)

0 top and bottom layers 35% infill (rectilinear) .2mm layer 11 perimeters

use pla plus or pet-g pla will work but you might need to post process to get them to fit

haven't tried abs but my suspicion is shrinkage might cause issues

This remix is based on

isopod or other arthropod enclosure 2 piece vent
