

# HeroMe 3Led fan mount

**B****Belackarl**[VIEW IN BROWSER](#)

updated 6. 1. 2024 | published 6. 1. 2024

## Summary

Needed a led mount, remixed this one.

[3D Printers](#) > [Other Printer Parts & Upgrades](#)

Tags: [led](#) [ledmount](#) [herome](#) [ledmounting](#) [heromegen7](#)  
[herome7](#) [ledfanduct](#)

I wanted to put lights on the [Hero Me 7.4](#) I am building for my cr10. I couldn't find any that fit standard LEDs so I combined two of the stock ones and did some clean up and printability sculpting.  
Should work with your already finished HeroMe Gen 6 too I think.

## This remix is based on

**Hero Me Gen 7 Platform Release 4**
