Printing

- All parts print without supports except for the skull emblem
- Multicolor top is available for MMU users
- The bottom of the mushroom dots require decent bridging, but the model includes some leeway if the bridging droops slightly.

Assembly

- Glue in eyes and skull - hot glue is recommended because parts have intentionally large gaps.
- Twist on lid

Can I sell copies of this?

Sorry, no. This model is under a non-commercial license because it is based directly on an existing IP.
