Summary

A 90 degree vertical bracket for ORP compatible items

[Hobby & Makers](#) > [Mechanical Parts](#)

Tags: [bracket](#) [90](#) [degrees](#) [orp](#)

A 90 degree bracket for ORP compatible items, usually plates or beams. Designed for mounting things vertically.

About ORP

ORP (Open Robotic Platform) is an open-source project for developing reusable and user-friendly components for use in hobbyist robotics. By following a set a design rules, parts can be used together easily and moved around by the user.

Key Notes:

- Designed for M3 screws, 3.5 mm diameter holes.
- Holes are in a grid pattern spaced 20 mm apart, starting at the center of the part.
