Summary

A small little jack-o'-lantern model to celebrate the season

[Seasonal designs](#) > [Autumn & Halloween](#)

Tags: [halloween](#) [decor](#) [halloweenpumpkin](#) [halloweendecor](#)

Feeling inspired by the festive season, I decided to model this jack-o'-lantern inspired by the Windows emoji of the same name.

I printed this at a layer height of 0.2mm

The upper teeth need supports, however everywhere else prints support free

Either print the stem separately (the 3mf contains both models) and glue it in place, or do a filament change partway through which is what I did for the cover print.
