Summary

This is an adapter allowing to grind coffee directly into the portafilter.

[Household](#) > [Kitchen](#)

Tags: [grinder](#) [coffee](#) [portafilter](#) [krups](#)

Adapter is modular, so it's easy to adjust separate parts, or print it in different colors. No glue or supports needed. PrusaSlicer warns about print stability issues. Reason is two small parts of perimeter of the duct module, just before the layer with bridges. No action needed.
