Hello,

Here's a replacement part for the 63827-1475 locator assembly of the 63827-1400 Molex hand crimp tool. Due to a drop, the grey plastic part from the locator assembly was deformed, thus resulting in the assembly not supporting the crimps anymore.

Print the part in 0,1mm layer height with 4 perimeters. I've included a STEP file in order to be able to adjust the tolerances depending on your printer.
