[silicagelcase](#)

Container for silicalgel to keep your filament dry when storing it.

As the grilles are 1,5mm the use of silicalgel with diameter 2~5mm is recommended.

There is a thread printed, so use 0,15mm layer height to have a good quality and the thread will work without problems and you easily can open and close the container.

## Print Settings

### Printer Brand:

Prusa

### Printer:

I3 MK3S

**Rafts:**

No

**Supports:**

No

**Resolution:**

0.15

**Infill:**

15%
