Tags: [keychain](#) [key](#) [keycap](#) [keys](#) [keycover](#) [keycovers](#)

A cute tortoise design for a key cover designed to fit over a standard round/Yale type of key.

printed in TPU so that there is enough stretch for it to fit over the top of the key.

to be printed standing up on the flat side with no supports
use 0.1 layer height to get all of the tortoise detail .

This was designed over a year ago and has been in use since then and has held up to daily wear and tear.
