Create your own unique **Onigiri Box** design. Print out your token (or use one from [my collection](#)), put on the O-ring and click into the lid.

The dimensions of the token are diameter 50 mm, height 2 mm.

The O-ring is better printed from TPU or other soft plastic.

You will need support to print this part. Make sure that the printing of bridges and supports is well configured.

This remix is based on

Onigiri box (rugged)

by Dmitry Ermakov
