### Summary

Makes your existing Maxi glider curtains compatible to be used with the Xiaomi Curtain Companion.

Use this instead of a maxi glider hook to use your curtains with the **Xiaomi Curtain Companion**. Simply hook the curtain companion into the hole and then loop your curtains onto the hook.

Prints nicely out of any material at any layer height. I would recommend printing it out of a strong filament (like PC, PA-CF is even better) to prevent it from breaking.

If you like what I'm doing, please give it a like consider **joining my club** or buying me a coffee! ☺
