updated 9. 10. 2023 | published 9. 10. 2023

Summary

Three main parts: bottom, middle and top. Print the middle as much as you like, with any color of your choosing.

Tags: [multicolor](#) [customizable](#) [keychain](#) [braille](#)

This model comes with three main parts: bottom, middle and top. Print the middle part as much as you like, with any color you like.

Create your own color combination. For your liking or for color coded key identification.

If you have difficulty with the thread tolerance, it might help to use hot air blower and use bolt m6 and/or m6 nut to shape the threads. Be careful not to deform it.

Update 2023/10/09:

- Added ring
- Added bottom part shape variations (my interpretation on [@secv](#) suggestion):
 - Cube
 - Slot

- Hex
- Cube with magnet (2pcs 6 x 3mm neodymium magnet) *
- Hook
- Added wire rack hanger for cube with magnet

Note:

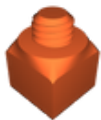

The magnet won't hold much unless it's put on another neodymium magnet.
