updated 8. 10. 2023 | published 8. 10. 2023

### Summary

A holder for your coasters.

[Household](#) > [Living Room](#)

Tags: [starwars](#) [coaster](#) [mandalorian](#) [drinkcoaster](#) [mando](#)  
[grogu](#) [drinkscoasters](#)

The holder has been designed to hold 6 cork-backed coasters measuring 10cm across. The holder stands at 36.03mm high and is 115.30mm at it's widest point.

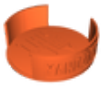

If you're using coasters of Grogu which have his ears sticking out from the 10cm diameter, then this holder will be perfect for you as I have taken this into consideration.

We're printing this on the Creality K1 in PLA+

I also have these on Cults3D, please check out my sales there:
